

TUCKER SNO-CAT® CORPORATION

2019 MAINTENANCE SEMINARS

Tucker Sno-Cat® Corporation Vehicle Maintenance Training Seminars

Utility Vehicles.....July 16th-17th

Grooming Vehicles.....September 17th-18th

Tucker Sno-Cat® Corporation has set the above dates for our maintenance training seminars. The grooming seminar will focus on the Model 2000 Trail Groomer. The utility seminar will focus primarily on the Model 2000XL, other models will be covered as they pertain to the utility application. Both seminars will have an emphasis on improvements and upgrades as well as common maintenance practices and service tips.

We encourage each customer to include any specific questions or information they would like to have covered. This will help us format a class that encompasses your questions.

As with most modern equipment, electronics play a large role in the performance and emissions of the Sno-Cat® vehicle. This year's classes will include some time with our electrical designer to give an overview and explain the difference between active and stored codes as well as answer any questions regarding the electrical system. There will also be a Cummins representative to cover the engine as well as filtration and any other questions you may have pertaining to the Cummins engine.

The seminars will take place at the Tucker Sno-Cat® facility in Medford, OR. The physical address is 2872 S. Pacific Hwy., Medford, OR 97501. The seminar will consist of but not limited to the following:

- Electrical system & fault tree/codes
- Drive train (differentials, transfer case, and drive lines)
- Hydraulic system
- Grooming implements and blade
- Steering system and alignment
- Tracks, carriers, and wheels

The cost is \$385.00 per person. This includes coffee and donuts in the mornings and lunch both days. Participants are responsible for their travel, lodging and other meals. Classes will start at 8 AM each day. Historically these seminars fill up so early registration is encouraged. Please try to provide any specific questions when you register, also include model and year of your Sno-Cat® vehicle.

NAME	COMPANY	MODEL / YEAR
